

Pipeline: From Scholarly Sources to High-Quality Problems

Scholarly Sources

Textbooks, course materials,
peer-reviewed journals

TRACE Pipeline

Extraction, contextualization,
and QA generation

Quality Control

Automated checks and
expert verification

StatEval Dataset

100,000+ text-only,
Verifiable problems

StatEval

Foundational Knowledge Dataset

22,262 Problems

70+ textbooks & course materials

Undergraduate → Doctoral

Statistical Research Dataset

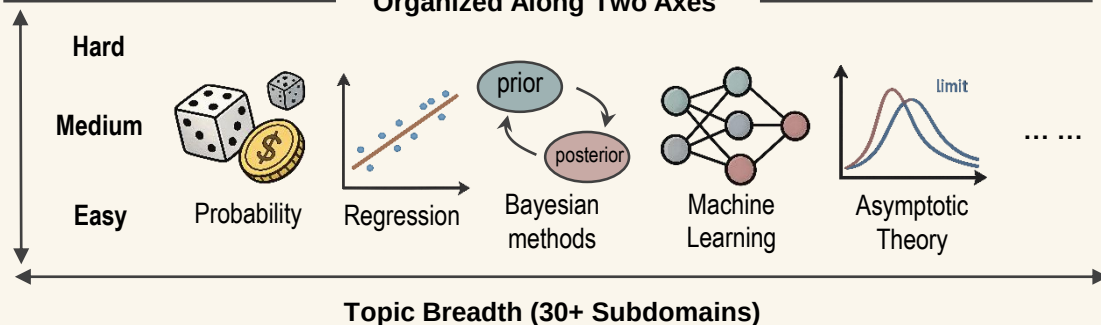

84,179 Problems

6 top-tier peer-reviewed journals

Research-level, proof-based

Organized Along Two Axes

Applications

1. Evaluate

LLMs

StatEval

Score

Evaluate statistical reasoning across
diverse topics and difficulties.

2. Improve

Retrieval

Fine-tuning

Better
Reasoning

Retrieval relevant knowledge and fine-
tune models to improve reasoning.
